# Independent Auditor's Report

To the Board of Education of Waverly-Shell Rock Community School District:

We have audited the accompanying financial statements of the governmental activities, the business type activities and each major fund of Waverly-Shell Rock Community School District, Waverly, Iowa as of and for the year ended June 30, 2011, which collectively comprise the District's basic financial statements listed in the table of contents. These financial statements are the responsibility of District officials. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities and each major fund of Waverly-Shell Rock Community School District at June 30, 2011 and the respective changes in financial position and cash flows, where applicable, for the year then ended in conformity with U.S. generally accepted accounting principles.

In accordance with Government Auditing Standards, we have also issued our report dated March 28, 2012 on our consideration of Waverly-Shell Rock Community School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Management's Discussion and Analysis, Budgetary Comparison Information and Schedule of Funding Progress for the Retiree Health Plan on pages 4 through 12 and 37 through 39 are not required parts of the financial statements, but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. We did not audit the information and express no opinion on it.

202 Central Avenue East P.O. Box 241 Clarion, IA 50525 Phone: (515) 532-6659 Fax: (515) 532-3677 bruce@frinkcpa.com Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Waverly-Shell Rock Community School District's basic financial statements. We previously audited, in accordance with the standards referred to in the second paragraph of this report, the financial statements for the seven years ended June 30, 2010 (which are not presented herein) and expressed unqualified opinions on those financial statements. Other supplemental information included in Schedules 1 through 6, including the Schedule of Expenditures of Federal Awards required by U.S. Office of Management and Budget (OMB) Circular A-133, Audits of States, Local Governments and Non-Profit Organizations is presented for purposes of additional analysis and is not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in our audit of the aforementioned financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

### MANAGEMENT'S DISCUSSION AND ANALYSIS

Waverly-Shell Rock Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2011. We encourage readers to consider this information in conjunction with the District's financial statements, which follow.

## 2011 FINANCIAL HIGHLIGHTS

- Waverly-Shell Rock Community School District is building a new 5-8 middle school due to the flood of June 2008 totally ruining Washington Irving School (grades 5 & 6). Prior to the flood, it was anticipated the school would build a new 7<sup>th</sup> and 8<sup>th</sup> grade building because the 7<sup>th</sup> and 8<sup>th</sup> grade building is the oldest school building in the district; it was built in 1926.
- The District had revenues of \$18,204,886 and \$19,695,354 was spent during the fiscal year. The District's financial solvency ratio as of June 30, 2011 was -15.7%. The financial solvency ratio as of June 30, 2010 was -9.6%.
- The District experienced a decrease in certified enrollment. The October 2009 enrollment was 1894.68, while the October 1, 2010 enrollment was 1888.5.
- The number of net open-enrolled students increased from 69 in fiscal year 2010 to 72 in fiscal year 2011.
- The District's alternative high school is continuing to become a regional alternative high school with a growing number of students from other districts enrolling in the program. This is having a positive financial impact on the District. The District took in over \$75,752 in tuition from neighboring districts that sent students to Waverly-Shell Rock's alternative high school.
- The District continued to share a guidance counselor with the Janesville Consolidated School District. This has allowed for some cost savings.
- The State of Iowa deducted a total of \$818,381 during fiscal year 2011.

# USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements and other information, as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.

The Government-wide Financial Statements consist of a Statement of Net Assets and a Statement of Activities. These provide information about the activities of Waverly-Shell Rock Community School District as a whole and present an overall view of the District's finances.

The Fund Financial Statements tell how governmental services were financed in the short term as well as what remains for future spending. Fund financial statements report Waverly-Shell Rock Community School District's operations in more detail than the government-wide statements by providing information about the most significant funds. The remaining statements provide financial information about activities for which Waverly-Shell Rock Community School District acts solely as an agent or custodian for the benefit of those outside of the District.

Notes to financial statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information further explains and supports the financial statements with a comparison of the District's budget for the year as well as presenting the Schedule of Funding Progress from the Retiree Health Plan.

Other Supplementary Information provides detailed information about the Student Activity and fiduciary funds as well as a multiyear comparison of revenues and expenditures. In addition, the Schedule of Expenditures of Federal Awards provides details of various federal programs benefiting the District.

Figure A-1 shows how the various parts of this annual report are arranged and relate to one another.

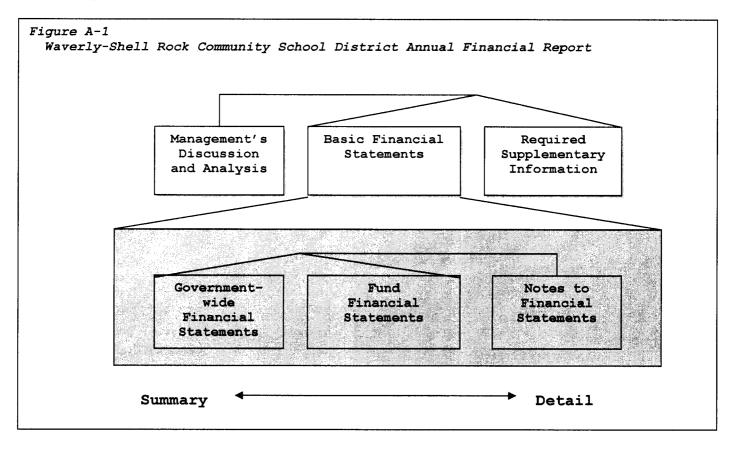

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain.

## REPORTING THE DISTRICT'S FINANCIAL ACTIVITIES

Government-wide Financial Statements

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Assets includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two government-wide financial statements report the District's net assets and how they have changed. Net assets - the difference between the District's assets and liabilities - are one way to measure the District's financial health or financial position. Over time, increases or decreases in the District's net assets are an indicator of whether financial position is improving or deteriorating. To assess the District's overall health, additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities, need to be considered.

In the government-wide financial statements, the District's activities are divided into two categories:

- Governmental activities: Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finance most of these activities.
- Business type activities: The District charges fees to help cover the costs of certain services it provides. The District's school nutrition program is included here.

## Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds — not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs. The District has elected to present all funds as "major" for clarity of presentation.

Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds, or to show that it is properly using certain revenues, such as federal grants.

The District has three kinds of funds:

1) Governmental funds: Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.

The District's governmental funds include the General Fund, the Special Revenue Funds, the Debt Service Fund and the Capital Projects Funds.

The required financial statements for governmental funds include a balance sheet and a statement of revenues, expenditures and changes in fund balances.

2) Proprietary funds: Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide financial statements. The District's Enterprise Funds, one type of proprietary fund, are the same as its business type activities but provide more detail and additional information, such as cash flows. The District currently has one Enterprise Fund, the School Nutrition Fund.

The Internal Service Fund is used only to collect, hold and pay out money for the District's employee group health insurance plan. Revenues come from the Board of Education's allocation of funds for the health insurance employee benefit, payroll deductions from employee's checks and checks brought in by retiree's that continue to stay on the plan.

The required financial statements for proprietary funds include a statement of net assets, a statement of revenues, expenses and changes in net assets and a statement of cash flows.

- 3) Fiduciary funds: The District is the trustee, or fiduciary, for assets that belong to others. These funds include Private-Purpose Trust Funds and Agency Funds.
  - Private-Purpose Trust Fund The District accounts for outside donations for scholarships for individual students in this fund.
  - Agency Funds These are funds through which the District administers and account for certain federal and/or state grants on behalf of other District's and certain revenue collected for District employee purchases of pop and related expenditures.

The District is responsible for ensuring the assets reported in the fiduciary funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

The required financial statements for fiduciary funds include a statement of fiduciary net assets and a statement of changes in fiduciary net assets.

Reconciliations between the government-wide financial statements and the fund financial statements follow the fund financial statements.

# GOVERNMENT-WIDE FINANCIAL ANALYSIS

Figure A-3 below provides a summary of the District's net assets at June 30, 2011 compared to the year ended June 30, 2010.

|                             |           |         | F          | igure A-3  |           |         |                   |

| Net Assets                  |           |         |            |            |           |         |                   |
| Invested in capital assets, |           |         |            |            |           |         |                   |
| net of related debt         | 16,449    | 1,239   | 29         | 29         | 16,478    | 1,268   | 92.30%            |
| Restricted                  | 6,273     | 14,208  | -          | -          | 6,273     | 14,208  | 44.15%            |
| Unrestricted                | (2,435)   | (1,169) | (19)       | (12)       | (2,454)   | (1,181) | - <u>107.79</u> % |
| Total net assets            | \$ 20,287 | 14,278  | 10         | 17         | 20,297    | 14,295  | 41.99%            |

The District's combined net assets increased 42% over the prior year. The largest portion of the District's net assets is capital assets and construction projects not yet completed.

Invested in capital assets (cost of land, buildings and equipment less related debt) increased primarily due to construction of the new 5-8 building.

Restricted net assets represent resources subject to external restrictions, constitutional provisions or enabling legislation on how they can be used. The District's restricted net assets decreased over the prior year due to these funds being used for construction.

Unrestricted net assets - the part of net assets that can be used to finance day-to-day operations without constraints established by debt covenant, enabling legislation or other legal requirements decreased 108%. This decrease in unrestricted net assets was primarily a result of the District's decrease in the General Fund.

The capital assets and restricted funds amounts will change greatly in fiscal year 2011 as the new school building is completed. Funds in the Capital Projects Fund will be shifted to capital assets.

Figure A-4 show the changes in net assets for the year ended June 30, 2011 compared to the year ended June 30, 2010.

| Change in net assets             | \$ 6,008 | 3,275  | 55      | (141)       | 6,063   | 3,134  | 93.46%    |

Property tax and unrestricted state grants account for 48% of the total revenue. The District's expenses primarily relate to instruction and support services which account for 83% of the total expenses.

## Governmental Activities

Revenues for governmental activities were \$29,461,661 and expenses were \$23,453,627 for the year ended June 30, 2011. Revenues from governmental activities were \$6,008,034 greater than the expenditures for governmental activities.

The following table presents the total and net cost of the District's major governmental activities, instruction, support services and other expenditures, for the year ending June 30, 2011 compared to the year ended June 30, 2010.

For the year ended June 30, 2011:

- The cost financed by users of the District's programs was \$1,236,222.
- Federal and state governments subsidized certain programs with grants and contributions totaling \$2,526,134.
- The net cost of governmental activities was financed with \$7,179,135 in property tax and \$7,486,753 in state foundation aid.

### Business Activities

Revenues for the District's School Nutrition Fund were \$963,819 and expenses were \$908,548. The revenues include: charges for services, contributions and federal and state reimbursements.

The Internal Service Fund is used only to collect, hold and pay out money for the District's employee group health insurance plan. Revenues come from the Board of Education's allocation of funds for the health insurance employee benefit, payroll deductions from employee's checks and checks brought in by retiree's that continue to stay on the plan.

# Fiduciary Funds

The Trust Funds are funds given and designated by outside groups and people basically to be given as scholarships. These funds are not to be used to support the operations of the District.

The Agency Funds are funds belonging to parent groups, school employee groups and such groups as Athletic Boosters. The school merely holds these funds in a bank account for these groups and writes checks for these groups when directed by the group. These funds are not to be used to support the regular operations of the District.

# FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The Waverly-Shell Rock Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The financial performance of the District is reflected in its governmental funds. As the District completed the fiscal year, its governmental funds reported combined fund balances of \$3,202,943, which is much less than last year's ending fund balance of \$12,617,164.

This is a dramatic reversal as bond proceeds received in the prior fiscal year were spent for the new building. This was anticipated and is no reflection of whether project costs are on budget or not.

## Governmental Fund Highlights

- The District has been controlling the decline of its General Fund balance by greatly reducing travel and field trips, and reducing staff slightly where possible.
- Increased open enrollments into the District have helped maintain instructional programs with the increased number of students and tuition-in dollars.
- The District used sales tax dollars to add a gym and auditorium to the senior high school.

# BUDGETARY HIGHLIGHTS

In accordance with the Code of Iowa, the Board of Education annually adopts a budget after the required public notice and hearing. The budget for the current fiscal year is usually amended each April for revenues and expenditures that could not be anticipated the prior April. The budget amending process follows similar statutory procedures.

Actual revenues were less than budgeted amounts by \$2,715,860 primarily due to less state source revenue and timing of federal spending. Actual expenses were less than budgeted amounts by \$1,347,119. This was due to the District's practice, as is in most Iowa school districts, to budget expenditures at or about the maximum authorized spending. Also, the budget was amended to reflect a \$3,910,000 increase primarily for new construction and flood damages. As a result, the Districts' certified budget should always exceed the actual expenditures for the year.

The District exceeded the amended budget amount in the other expenditures function. The District did not exceed its unspent authorized budget.

# CAPITAL ASSET AND DEBT ADMINISTRATION

# Capital Assets

By the end of fiscal year 2011, the District had invested more than \$36,000,000 (net of accumulated depreciation) in a broad range of capital assets including school buildings, athletic facilities, kitchens, computers and audio-visual equipment, administration building, transportation/storage facility, maintenance equipment, school buses and other vehicles, library holdings and textbooks. Total depreciation for the year exceeded \$996,000.

# Long-term Debt

The District issued \$15,700,000 of general obligation school bonds for construction of a new building to house grades 5 through 8. The District makes principal and interest payments yearly on these bonds using property tax dollars obtained through a debt service levy specifically for these bonds. \$15,270,000 remain outstanding at June 30, 2011.

The District owes \$1,755,000 of revenue bonds for the construction of an addition to the high school in October 2005. This remains to be paid over the next 5 years with proceeds from the statewide sales, services and use tax.

The District issued \$2,780,000 of revenue bonds for the high school addition. Interest only will be paid for 7 years and principal will be paid from fiscal year 2015 through fiscal year 2022.

## ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were prepared and audited, the District was aware of several existing circumstances that could significantly affect its financial health in the future:

- Washington Irving School will have to be replaced due to the flood ruining the building. FEMA and Iowa Homeland Security are promising the school significant financial help.
- The Board of Education held a bond referendum on April 7, 2009 to build a new school for all district students in grade 5 through 8. This building would replace Washington Irving School that was totally ruined in the June 12<sup>th</sup> flood and it also would replace the junior high school that is over 82 years old.
- The District levied \$265,000 allowable growth for dropout prevention.
- The District's employee group health insurance did not increase. This was welcome news to the employees and the Board.
- State Foundation Aid dollars to the District increased \$1,130,000 from fiscal year 2010 to fiscal year 2011. Property tax dollars for the General Fund increased \$1,191,000 from fiscal year 2010 to fiscal year 2011.
- The District began receiving payments in December 2005 for Instructional Support Income Surtax.
- The Greenview Alternative High School in Waverly is becoming a regional alternative high school. Many students come from a variety of neighboring school districts to Greenview. The tuition in, for these students, has been a real positive for the Waverly-Shell Rock Community School District.

# CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide the District's citizens, taxpayers, customers and creditors with a general overview of the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Dennis Stufflebeam, School Business Manager, Waverly-Shell Rock Community Schools, 1415 4<sup>th</sup> Avenue SW, Waverly, Iowa 50677.

## WAVERLY-SHELL ROCK COMMUNITY SCHOOL DISTRICT

Reconciliation of the Balance Sheet - Governmental Funds to the Statement of Net Assets

June 30, 2011

| Amounts reported for governmental activities in the Statement of Net Assets are different because:   |            |
|--|------------|
| Income surtax receivable at June 30, 2011 is not recognized as income until received in the governmental funds, however it is shown as a revenue in the Statement of Activities. | 719,654    |
| Internal Service fund assets that are to be included with governmental funds.  | 306,874    |
| Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in the governmental funds.                                 | 36,254,164 |

Accrued interest payable on long-term liabilities is not due and payable in the current period and, therefore, is not reported as a liability in the governmental funds.

(139, 111)

Long-term liabilities, including bonds payable, early retirement payments and other postemployment benefits are not due and payable in the current period and, therefore, are not reported as liabilities in governmental funds

(20,057,951)

Net assets of governmental activities (Exhibit A)

Total fund balances of governmental funds (Exhibit C)

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances - Governmental Funds to the Statement of Activities

Year ended June 30, 2011

## Net change in fund balances - total governmental funds (Exhibit E)

\$ (9,414,221)

# Amounts reported for governmental activities in the Statement of Activities are different because:

Income surtaxes not collected for several months after the District's fiscal year ends are not considered "available" revenues in the governmental funds and are included as deferred revenues. They are, however, recorded as revenues in the statement of activities. This represents the change in income surtax receivable from the prior fiscal year.

102,087

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, those costs are reported in the Statement of Net Assets and are allocated over their estimated useful lives as depreciation expense in the Statement of Activities. The amounts of capital outlays and depreciation expense in the year are as follows:

Capital outlays
Depreciation expense

\$ 15,225,174

(989,654) 14,235,520

Repayment of long-term liabilities is an expenditure in the government funds, but the repayment reduces long-term liabilities in the Statement of net assets

975,000

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds, as follows:

Early retirement
Other postemployment benefits

190,893

(78, 100)

112,793

Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when due. In the Statement of Activities, interest expense is recognized as the interest accrues, regardless of when it is due.

110,124

Internal Service Fund transactions are not reported in the General Fund as revenues and expenditures, however the General Fund is the source of these revenues and use of the expenditures.

(113,269)

Change in net assets of governmental activities (Exhibit B)

\$ 6,008,034

## Notes to Financial Statements

June 30, 2011

## (1) Summary of Significant Accounting Policies

Waverly-Shell Rock Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades kindergarten through twelve and special education pre-kindergarten. The geographic area served includes the Cities of Waverly and Shell Rock, Iowa, and agricultural area in Black Hawk, Bremer and Butler Counties. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

# A. Reporting Entity

For financial reporting purposes, Waverly-Shell Rock Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the District. Waverly-Shell Rock Community School District has no component units which meet the Governmental Accounting Standards Board criteria.

<u>Jointly Governed Organizations</u> - The District participates in a jointly governed organization that provides services to the District but does not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the Bremer County Assessor's Conference Board.

## B. Basis of Presentation

Government-wide Financial Statements - The Statement of Net Assets and the Statement of Activities report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for service.

The Statement of Net Assets presents the District's nonfiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes and other debt attributable to the acquisition, construction or improvement of those assets.

Restricted net assets result when constraints placed on net asset use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net assets consist of net assets not meeting the definition of the preceding categories. Unrestricted net assets often have constraints on resources imposed by management which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

<u>Fund Financial Statements</u> - Separate financial statements are provided for governmental, proprietary and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. The District has elected to present all funds as major funds for clarity of presentation.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. All general tax revenues and other revenues not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, including instructional, support and other costs.

The Debt Service Fund is utilized to account for the payment of interest and principal on the District's general long-term debt.

The Capital Projects Fund, Physical Plant and Equipment Levy is utilized to account for the maintenance and equipping of the District's facilities.

The Student Activity Fund is used to account for extra curricular activities conducted on behalf of the students.

The Management Levy Fund is utilized for the payment of insurance, unemployment and early retirement benefits.

The Capital Projects Fund, Statewide Sales, Services and Use Tax is used to account for all resources used in the acquisition and construction of capital facilities.

The District's major proprietary funds are the Enterprise, School Nutrition Fund and Internal Service Fund. The School Nutrition Fund is used to account for the food service operations of the District. The Internal Service Fund is used to account for the District's medical insurance plan.

The District also reports fiduciary funds which focus on net assets and changes in net assets. The District's fiduciary funds include the following:

The Private Purpose Trust Fund is used to account for assets held by the District under trust agreements which require income earned to be used to benefit individuals through scholarship awards.

The Agency Fund is used to account for assets held by the District as an agent for individuals, private organizations and other governments. The Agency Fund is custodial in nature, assets equal liabilities, and does not involve measurement of results of operations.

# C. Measurement Focus and Basis of Accounting

The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the District's policy is generally to first apply the expenditure toward restricted fund balance and then to less-restrictive classifications - committed, assigned and then unassigned fund balances.

Proprietary funds of the District applies all applicable GASB pronouncements, as well as the following pronouncements issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's Enterprise Fund are charges to customers for sales and services. Operating expenses for the Enterprise Fund includes the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

# D. Assets, Liabilities and Fund Equity

The following accounting policies are followed in preparing the financial statements:

<u>Cash</u>, <u>Pooled Investments and Cash Equivalents</u> - The cash balances of most District funds are pooled and invested. Investments are stated at fair value except for non-negotiable certificates of deposit which are stated at cost.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchase, they have a maturity date no longer than three months.

<u>Property Tax Receivable</u> - Property tax in governmental funds is accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date that the tax asking is certified by the Board of Education. Current property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1½% per month penalty for delinquent payments; is based on January 1, 2009 assessed property valuations; is for the tax accrual period July 1, 2010 through June 30, 2011 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April 2010.

 $\frac{\text{Due from Other Governments}}{\text{the State of Iowa, various shared revenues, grants and reimbursements from other governments.}$ 

<u>Inventories</u> - Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather then when purchased or received.

<u>Capital Assets</u> - Capital assets, which include property, furniture and equipment and intangibles are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Assets. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years. No intangible assets were noted that exceeded the threshold amount.

| Asset Class   | Amount                       |
|---|------------------------------|
| Land Buildings Improvements other than buildings              | \$ 2,000<br>10,000<br>10,000 |
| Intangible assets Furniture and equipment:                    | 150,000                      |
| School Nutrition Fund equipment Other furniture and equipment | 1,000<br>1,000               |

Capital assets we depreciated using the straight-line method over the following estimated useful lives:

| Asset Class                       | Estimated<br>Useful Lives<br>(In Years) |  |  |
|-----------------------------------|---|--|--|
| Buildings                         | 50 years                                |  |  |
| Improvements other than buildings | 20-50 years                             |  |  |
| Intangible assets                 | 5-10 years                              |  |  |
| Furniture and equipment           | 5-15 years                              |  |  |

<u>Salaries and Benefits Payable</u> - Payroll and related expenditures for employees with annual contracts corresponding to the current school year, which are payable in July and August, have been accrued as liabilities.

Deferred Revenue - Although certain revenues are measurable, they are not available. Available means collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred revenue in the governmental fund financial statements represent the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred revenue consists of unspent grant proceeds as well as property tax receivables and other receivables not collected within sixty days after year-end.

Deferred revenue in the Statement of Net Assets consists of succeeding year property tax receivable that will not be recognized as revenue until the year for which it is levied as well as unspent federal program revenues.

Compensated Absences - District employees accumulate a limited amount of earned but unused vacation for subsequent use or for payment upon termination, death or retirement. A liability is recorded when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental fund financial statements only for employees that have resigned or retired. The compensated absences liability is deemed to be immaterial at June 30, 2011.

 $\underline{\text{Long-Term Liabilities}}$  - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Assets.

<u>Fund Equity</u> - In the governmental fund financial statements, fund balances are classified as follows:

Restricted - Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

Unassigned - All amounts not included in other spendable classifications.

Restricted Net Assets - In the government-wide Statement of Net Assets, net assets are reported as restricted when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors or laws and regulations of other governments or are imposed by law through constitutional provisions or enabling legislation.

# E. Budgets and Budgetary Accounting

The budgetary comparison and related disclosures are reported as Required Supplementary Information. During the year ended June 30, 2011, expenditures exceeded the amended amount budgeted in the other expenditures function. The District did not exceed its General Fund unspent authorized budget.

## (2) Cash and Pooled Investments

The District's deposits at June 30, 2011 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

The District had no investments at June 30, 2011.

# (3) Capital Assets

Capital assets activity for the year ended June 30, 2011 was as follows:

|   | Balance<br>Beginning<br>of Year | Increases  | Decreases | Balance<br>End of<br>Year |
|---|---------------------------------|------------|-----------|---------------------------|
| Governmental activities:  |                                 |            |           |                           |
| Capital assets not being depreciated:                                 |                                 |            |           |                           |

| 2014                       | 4.50                            | 125,100           | <del>-</del> | 125,100   |  |
| 2015                       | 4.50                            | 125,100           | 400,000      | 525,100   |  |
| 2016                       | 4.50                            | 107,100           | 390,000      | 497,100   |  |
| 2017-2021                  | 4.50                            | 287,550           | 1,700,000    | 1,987,550 |  |
| 2022                       | 4.50                            | <u>13,050</u>     | 290,000      | 303,050   |  |
| Total                      |                                 | \$ <u>908,100</u> | 2,780,000    | 3,688,100 |  |

The District has pledged future statewide sales, services and use tax revenues to repay the bonds issued in May, 2006 and September, 2007. The bonds were issued for the purpose of financing a portion of the costs of a new school. The bonds are payable solely from the proceeds of the statewide sales, services and use tax revenues received by the District and are payable through 2022. The bonds are not a general obligation of the District. However, the debt is subject to the constitutional debt limitation of the District. Annual principal and interest payments on the bonds are expected to require nearly 100 percent of the statewide sales, services and use tax revenues. The total principal and interest remaining to be paid on the notes is \$5,569,480. For the current year, \$751,980 of principal and interest was paid on the bonds and total statewide sales, service and use tax revenues were \$1,196,965.

The resolution providing for the issuance of the statewide sales, services and use tax revenue bonds includes the following provisions:

- a) \$678,000 of the proceeds from the issuance of the revenue bonds shall be deposited to a Reserve Account to be used solely for the purpose of paying principal and interest on the bonds if insufficient money is available in the Sinking Account. The balance of the proceeds shall be deposited to the Project Account. That account currently has a balance of \$781,116.
- b) All proceeds from the statewide sales, services and use tax shall be placed in a Revenue Account.
- c) Monies in the Revenue Account shall be disbursed to make deposits into a Sinking Account to pay the principal and interest requirements of the revenue bonds for the fiscal year.
- d) Any monies remaining in the Revenue Account after the required transfer to the Sinking Account may be transferred to the Project Account to be used for any lawful purpose.

The District is in compliance with all of these items.

### General Obligation Bonded Indebtedness

The voters of the District approved the issuance of \$15.7 million in general obligation bonds for the construction of a new school building housing grades 5 through 8. This will replace the Irving building which was ruined in the 2008 flood and the junior high building which was over 80 years old.

| Year<br>Ending |            | Bond Issue of February 1, 2010 |                |            |  |  |  |  |

### (5) Pension and Retirement Benefits

The District contributes to the Iowa Public Employees Retirement System (IPERS) which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits which are established by state statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, PO Box 9117, Des Moines, Iowa, 50306-9117.

Plan members are required to contribute 4.50% of their annual salary and the District is required to contribute 6.95% of annual covered salary. Contribution requirements are established by state statute. The District's contribution to IPERS for the years ended June 30, 2011, 2010, and 2009 were \$740,959, \$726,681 and \$650,558 respectively, equal to the required contributions for each year.

### (6) Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the Area Education Agency. The District's actual amount for this purpose totaled \$850,882 for year ended June 30, 2011 and is recorded in the General Fund by making a memorandum adjusting entry to the cash basis financial statements.

### (7) Early Retirement

The District offers a voluntary early retirement plan to its certified employees. Eligible employees must be at least age fifty-five and employees must have completed fifteen years of continuous service to the District. Employees must complete an application which is required to be approved by the Board of Education. The early retirement incentive for each eligible employee is equal to the employee's salary calculated by using the current year regular salary schedule, less the current year base pay. Early retirement benefits paid during the year ended June 30, 2011 totaled \$190,893.

### (8) Risk Management

Waverly-Shell Rock Community School District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

### (9) Other Postemployment Benefits (OPEB)

<u>Plan Description</u> - The District operates a single-employer retiree benefit plan which provides medical benefits for retirees and their spouses. There are 156 active and 29 retired members in the plan. Participants must be age 55 or older at retirement. All are included in this valuation.

The medical insurance coverage is provided through a fully-insured plan with Wellmark. Retirees under age 65 pay the same premium for the medical/insurance benefit as active employees, which result in an implicit rate subsidy and an OPEB liability.

<u>Funding Policy</u> - The contribution requirements of plan members are established and may be amended by the District. The District currently finances the retiree benefits plan on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation - The District's annual OPEB cost is calculated based on the annual required contribution (ARC) of the District, an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The following table shows the components of the District's annual OPEB cost for the year ended June 30, 2011, the amount actually contributed to the plan and changes in the District's net OPEB obligation:

| Annual required contribution Interest on net OPEB Obligation | \$ 75,972<br>2,128 |
|--|--------------------|
| Adjustment to annual required contribution                   | ,                  |
| Annual OPEB Cost   | 78,100             |
| Contributions made   | · -                |
| Increase in net OPEB obligation                              | 78,100             |
| Net OPEB obligation beginning of year                        | 85,133             |
|  |                    |
| Net OPEB obligation end of year                              | \$ <u>163,233</u>  |

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2008. The end of the year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the actual contributions for the year ended June 30, 2011.

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation as of June 30, 2011 are summarized as follows:

|               |           | Percentage of    |            |
|---------------|-----------|------------------|------------|
| Year          | Annual    | Annual OPEB      | Net OPEB   |
| Ended         | OPEB Cost | Cost Contributed | Obligation |
| June 30, 2009 | \$65,671  | 0.00%            | \$ 65,671  |
| June 30, 2010 | \$70,634  | 72.80%           | \$ 85,133  |
| June 30, 2011 | \$78,100  | 0.00%            | \$163,233  |

Funded Status and Funding Progress - As of July 1, 2009, the most recent actuarial valuation date for the period July 1, 2010 through June 30, 2011, the actuarial accrued liability was \$540,796, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$540,796. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$10,661,000 and the ratio of the UAAL to covered payroll was 5.1%. As of June 30, 2011, there were no trust fund assets.

Actuarial Methods and Assumptions - Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information, in the section following the Notes to Financial Statements, will present multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of the July 1, 2008 actuarial valuation date, the frozen entry age actuarial cost method was used. The actuarial assumptions include a 2.5% discount rate based on the District's funding policy. The annual medical trend rate is 6%.

Mortality rates are from the 94 Group Annuity Mortality Table, applied on a gender-specific basis. A zero employee turnover rate is assumed.

No benefit continuation is assumed past the age of 65. Due to the actuarial cost method selected, benefits are not related to salary levels.

### (10) Financial Condition

The General Fund had a deficit balance of \$2,367,179 at June 30, 2011.

### (11) Commitment

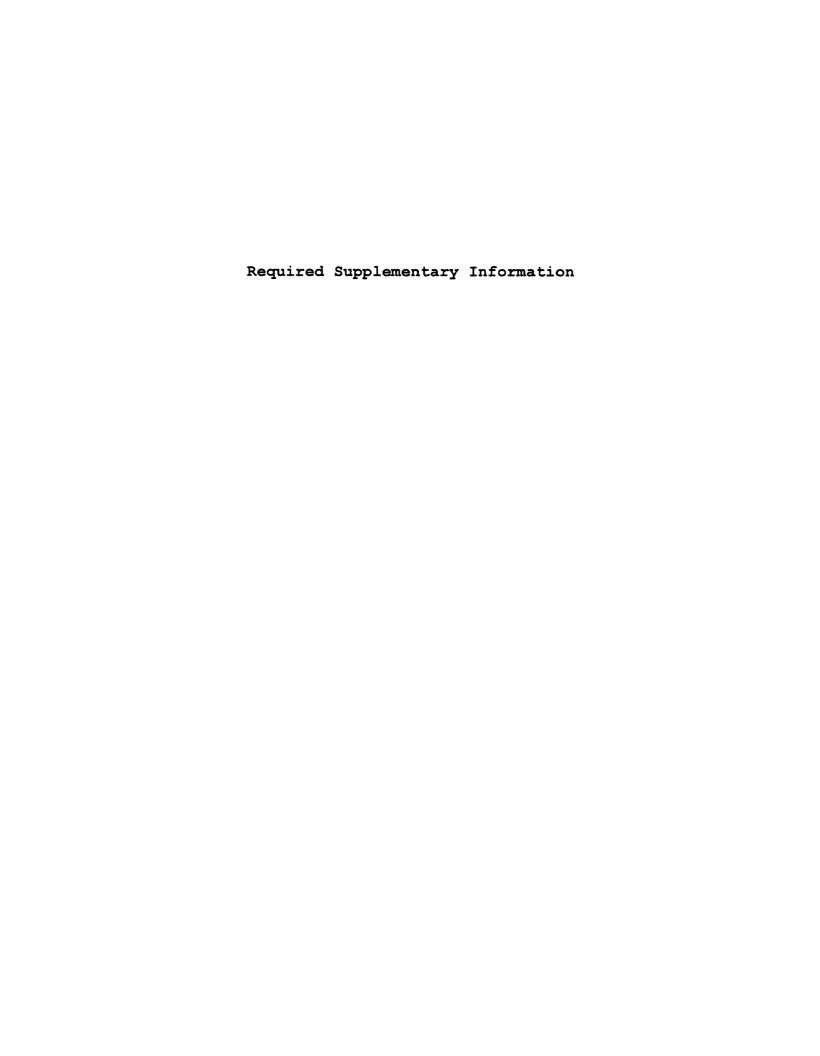

At June 30, 2011, the District had entered into contracts for \$21,841,655 for the construction of a new school building to house grades 5 through 8 as well as a safe room at the high school. As the project is materially complete and the building is occupied, the amounts have been added to the cost of buildings in the capital assets. The following amounts are as of June 30, 2011.

| Total Contracts | \$21,841,656     |
|-----------------|------------------|
| Total Completed | 19,556,144       |
| Retainage       | 977 <b>,</b> 807 |
| Current Payable | 1,242,695        |
| To be completed | 2,285,512        |

### (12) Accounting Change/Restatement

Governmental Accounting Standards Board Statement No. 54, <u>Fund Balance Reporting and Governmental Fund Type Definitions</u>, was implemented during the year ended June 30, 2011. The effect of fund type reclassifications is as follows:

|  | Capital Projects, Physical Plant and Equipment Levy | Special Revenue,<br>Physical Plant<br>and Equipment<br>Levy |  |
|--|---|---|--|
| Balances June 30, 2010, as previously reported Change in fund type classification per implementati | \$ -  | 104,832   |  |
| of GASB Statement No. 54   | 104,832   | (104,832)   |  |
| Balances July 1, 2010, as restated   | \$ <u>104,832</u>                                   | _   |  |

Note to Required Supplementary Information - Budgetary Reporting

Year ended June 30, 2011

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standard Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except Private Purpose Trust and Agency Funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions, not by fund or fund type. These four functions are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated function level, not by fund. The Code of Iowa also provides that District expenditures in the General Fund may not exceed the amount authorized by the school finance formula. During the year, the District adopted one budget amendment increasing budgeted expenditures by \$3,910,000.

During the year ended June 30, 2011, expenditures exceeded the amended amount budgeted in the other expenditures function. The District did not exceed the General Fund unspent authorized budget.

Basis of Presentation - The Schedule of Expenditures of Federal Awards includes the federal grant activity of Waverly-Shell Rock Community School District and is presented in conformity with the accrual or modified accrual basis of accounting. The information on this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

Independent Auditor's Report on Internal Control
over Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in Accordance
with Government Auditing Standards

To the Board of Education of the Waverly-Shell Rock Community School District:

We have audited the accompanying financial statements of the governmental activities, the business type activities and each major fund of Waverly-Shell Rock Community School District as of and for the year ended June 30, 2011, which collectively comprise the District's basic financial statements listed in the table of contents, and have issued our report thereon dated March 28, 2012. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

### Internal Control Over Financial Reporting

In planning and performing our audit, we considered Waverly-Shell Rock Community School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing our opinion on the effectiveness of Waverly-Shell Rock Community School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Waverly-Shell Rock Community School District's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and, therefore, there can be no assurance all deficiencies, significant deficiencies or material weaknesses have been identified. However, as described in the accompanying Schedule of Findings and Questioned Costs, we identified certain deficiencies in internal control over financial reporting we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of the control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis. We consider the deficiencies in internal control described in Part II of the accompanying Schedule of Findings and Questioned Costs as items II-A-11 and II-B-11 to be material weaknesses.

A significant deficiency is a deficiency or combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in Part II of the accompany Schedule of Findings and Questioned Costs as item II-C-11 to be a significant deficiency.

### Compliance and Other Matters

As part of obtaining reasonable assurance about whether Waverly-Shell Rock Community School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under <u>Government Auditing Standards</u>. However, we noted certain immaterial instances of non-compliance or other matters that are described in Part IV of the accompanying Schedule of Findings and Questioned Costs.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2011 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Waverly-Shell Rock Community School District's responses to findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. While we have expressed our conclusions on the District's responses, we did not audit Waverly-Shell Rock Community School District's responses and, accordingly, we express no opinion on them.

This report, a public record by law, is intended solely for the information and use of the officials, employees and citizens of Waverly-Shell Rock Community School District and other parties to whom Waverly-Shell Rock Community School District may report, including federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of Waverly-Shell Rock Community School District during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

Independent Auditor's Report on Compliance with Requirements

That Could Have a Direct and Material Effect on Each Major

Program and on Internal Control over Compliance in

Accordance with OMB Circular A-133

To the Board of Education of Waverly-Shell Rock Community School District:

### Compliance

We have audited the compliance of Waverly-Shell Rock Community School District's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that could have a direct and material effect on each of Waverly-Shell Rock Community School District's major federal programs for the year ended June 30, 2011. Waverly-Shell Rock Community School District's major federal programs are identified in Part I of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grant agreements applicable to each of its major federal programs is the responsibility of Waverly-Shell Rock Community School District's management. Our responsibility is to express an opinion on Waverly-Shell Rock Community School District's compliance based on our audit.

We conducted our audit of compliance in accordance with U.S. generally accepted auditing standards, the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States, and OMB Circular A-133, <u>Audits of States</u>, <u>Local Governments</u>, and <u>Non-Profit Organizations</u>. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether non-compliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Waverly-Shell Rock Community School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Waverly-Shell Rock Community School District's compliance with those requirements.

In our opinion, Waverly-Shell Rock Community School District complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2011.

### Internal Control over Compliance

The management of Waverly-Shell Rock Community School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grant agreements applicable to federal programs. In planning and performing our audit, we considered Waverly-Shell Rock Community School District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Waverly-Shell Rock Community School District's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses and therefore, there can be no assurance all deficiencies, significant deficiencies or material weaknesses have been identified. However, as discussed below, we identified a deficiency in internal control over compliance that we consider to be a material weakness.

A deficiency in the District's internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance such that there is a reasonable possibility material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected on a timely basis. We consider the deficiency in internal control over compliance described in the accompanying Schedule of Findings and Questioned Costs as item III-A-11 to be a material weakness.

Waverly-Shell Rock Community School District's responses to the findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. While we have expressed our conclusions on the District's responses, we did not audit Waverly-Shell Rock Community School District's responses and, accordingly, we express no opinion on them.

This report, a public record by law, is intended solely for the information and use of the officials, employees and citizens of Waverly-Shell Rock Community School District and other parties to whom Waverly-Shell Rock Community School District may report, including federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

### Part I: Summary of the Independent Auditor's Results

- (a) Unqualified opinions were issued on the financial statements.
- (b) A significant deficiency and material weaknesses in internal control over financial reporting were disclosed by the audit of the financial statements.
- (c) The audit did not disclose any noncompliance which is material to the financial statements.
- (d) A material weakness in internal control over major programs was disclosed by the audit of the financial statements.
- (e) An unqualified opinion was issued on compliance with requirements applicable to each major program.
- (f) The audit disclosed no audit findings which are required to be reported in accordance with Office of Management and Budget Circular A-133, Section .510(a).
- (g) Major program is as follows:
  - CFDA Number 84.410 Education Jobs Fund

### Clustered Programs:

- CFDA Number 10.555 School Breakfast Program
- CFDA Number 10.553 National School Lunch Program
- (h) The dollar threshold used to distinguish between Type A and Type B programs was \$300,000.
- (i) Waverly-Shell Rock Community School District did not qualify as a low-risk auditee.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

### Part II: Findings Related to the Financial Statements:

### INSTANCES OF NON-COMPLIANCE:

No matters were noted.

### SIGNIFICANT DEFICIENCIES:

II-A-11 Segregation of Duties - One important aspect of the internal control is the segregation of duties among employees to prevent an individual employee from handling duties which are incompatible. Although the District does a fine job of dividing incompatible duties among existing personnel, the District Secretary still has the ability to override the system without the knowledge of any other personnel.

Recommendation - We recommend that the District continue to segregate incompatible duties as much as possible, reviewing them annually to achieve the maximum segregation possible within the existing personnel. We realize that the District Secretary has a large number of required duties under the Code of Iowa which makes the situation difficult. We also realize that the District has a limited budget within which to hire additional personnel.

<u>Response</u> - We will continue to review and implement new procedures, when possible, to achieve the maximum segregation with existing personnel.

Conclusion - Response accepted.

II-B-11 <u>Auditor Drafting of the Financial Statements and Related Footnote Disclosures</u> - As in prior years, we were requested to draft the audited financial statements and related footnote disclosures as part of our regular audit services. SAS 115, an auditing standard from the American Institute of Certified Public Accountants, requires auditors to communicate this situation as an internal control deficiency. Ultimately, it is management's responsibility to provide for the preparation of the District's statements and footnotes, and the responsibility of the auditor to determine the fairness of the presentation of those statements. From a practical standpoint we do both for you at the same time in connection with our audit. This is not unusual for us to do this with organizations of your size. However, based on this auditing standard, it is our responsibility to inform you that this deficiency could result in a misstatement to the financial statements that could have been prevented or detected by the District's management. As in prior years, we have instructed management to review a draft of the auditor prepared financial statements in detail for their accuracy, we have answered any questions they might have, and encouraged research of any accounting guidance in connection with the adequacy and appropriateness of classification and disclosure in your financial statements. We are satisfied that the appropriate steps have been taken to provide you with the completed financial statements.

Recommendation - It is the responsibility of management and those charged with governance to make the decision whether to accept the degree of risk associated with this condition because of cost or other considerations.

Response - We feel our review of the draft financials is adequate for us to accept this risk.

Conclusion - Response accepted.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

## Part II: Findings Related to the Financial Statements: (continued)

II-C-11 Financial Reporting - During the audit, we identified material amounts of payables in the Capital Projects Fund which were not recorded in the District's financial statements. Adjustments were subsequently made by the District to properly include these amounts in the financial statements.

Recommendation - The District should implement procedures to ensure all payables are identified and included in the District's financial statements.

Response - We will double check these in the future to avoid missing any payables.

Conclusion - Response accepted.

### Part III: Findings For Federal Awards:

### INSTANCES OF NON-COMPLIANCE:

No matters were reported.

### INTERNAL CONTROL DEFICIENCIES:

CFDA Number 84.410 - Education Jobs Fund

Federal Award Year: 2011 US Department of Education

Passed through Iowa Department of Education

CFDA Number 10.555 - School Breakfast Program

CFDA Number 10.553 - National School Lunch Program

Federal Award Year: 2011 US Department of Education

Passed through Iowa Department of Education

III-A-11 <u>Segregation of Duties</u> - The District did not properly segregate custody, record keeping and reconciling functions for funds, including those related to Federal programs.

Recommendation - We recommend that the District continue to segregate incompatible duties as much as possible, reviewing them annually to achieve the maximum segregation possible within the existing personnel. We realize that the District Secretary has large number of required duties under the Code of Iowa which makes the situation difficult. We also realize that the District has a limited budget within which to hire additional personnel.

Response and Corrective Action Planned - We will continue to review and implement new procedures, when possible, to achieve the maximum segregation with existing personnel.

Conclusion - Response accepted.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

### Part IV: Other Findings Related to Required Statutory Reporting:

IV-A-11 <u>Certified Budget</u> - Expenditures for the year ended June 30, 2011, exceeded the amended certified budget amount in other expenditures function. The District did not exceed the unspent authorized budget.

Recommendation - While not exceeding the total amount budgeted, the budget for the individual functions should have been amended.

Response - We will amend future budgets

Conclusion - Response accepted.

- IV-B-11 <u>Questionable Expenditures</u> We noted no expenditures that may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979.
- IV-C-11 <u>Travel Expense</u> No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.
- IV-D-11 <u>Business Transactions</u> No business transactions between the District and District officials or employees were noted.
- IV-E-11 <u>Bond Coverage</u> Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to insure that the coverage is adequate for current operations.
- IV-F-11 Board Minutes We noted no transactions requiring Board approval which had not been approved by the Board.
- IV-G-11 Deposits and Investments We noted no instances of noncompliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the District's investment policy.
- IV-H-11 <u>Certified Annual Report</u> The Certified Annual Report was not filed with the Department of Education in a timely manner.

 $\frac{\text{Recommendation}}{\text{in future years.}}$  - We recommend that the District take steps to ensure timely filing

Response - We will endeavor to do so.

Conclusion - Response accepted.

- IV-I-11 <u>Certified Enrollment</u> No variances in the basic enrollment data certified to the Department of Education were noted.
- IV-J-11 <u>Supplementary Weighting</u> No variances regarding the supplementary weighting certified to the Iowa Department of Education were noted.
- IV-K-11 <u>Categorical Funding</u> No instances were noted of categorical funding being used to supplant rather than supplement other funds.

Schedule of Findings and Questioned Costs

Year ended June 30, 2011

## Part IV: Other Findings Related to Required Statutory Reporting: (continued)

IV-L-11 <u>Statewide Sales and Services Tax</u> - No instances of non-compliance with the use of the statewide sales, services and use tax revenue provisions of Chapter 423F.3 of the Code of Iowa were noted.

Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales, services and use tax revenue. Districts are required to include these reporting elements in the Certified Annual Report (CAR) submitted to the Iowa Department of Education. For the year ended June 30, 2011, the District reported the following information regarding the statewide sales, services and use tax revenue in the District's CAR:

| Beginning balance                  |                | \$13,195,412 |
|------------------------------------|----------------|--------------|
| Revenues/transfers in:             |                |              |
| Sales tax revenues                 | \$ 1,196,965   |              |
| Other local revenues               | 1,453,371      |              |
| Insurance proceeds                 | 5,231,022      | 7,881,358    |
|                                    |                | 21,076,770   |
| Expenditures/transfers out:        |                |              |
| School infrastructure construction | 15,665,625     |              |
| Transfers to other funds:          | , ,            |              |
| Debt service fund                  | <u>752,780</u> | 16,418,405   |
| Ending balance                     |                | \$ 4,658,365 |

For the year ended June 30, 2011, the District did not reduce any levies as a result of the moneys received under Chapter 423E or 423F of the Code of Iowa.

IV-M-11 <u>Deficit Balance</u> - Several student activity accounts had deficit balances at June 30, 2011. The General Fund had a deficit balance of \$2,367,179 at June 30, 2011.

Recommendation - The District should continue to investigate alternatives to eliminate these deficits in order to return these accounts to a sound financial condition.

<u>Response</u> - The District is continuing to investigate alternatives to eliminate deficits in the General Fund and student activity accounts at the end of the fiscal year. Another midyear state aid cut made our task even more difficult.

<u>Conclusion</u> - Response accepted.
